DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 21-37, drawn to an adhesive-backed film application tool.

Group II, claim(s) 38-40, drawn to a process for applying an adhesive-backed film.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The special technical feature of applying the adhesive-backed film to a first surface of a sash is not required in the application tool and therefore a lack of corresponding special technical feature to a single general inventive concept.

3. A telephone call was made to Harold C. Knecht III on December 4, 2009 to request an oral election to the above restriction requirement, but did not result in an election being made. The examiner left a message for Mr. Knecht to contact the examiner for the oral election and Mr. Knecht called the examiner back but required Mr. Knecht needed to confer with the inventor to make the election. However, the examiner has not received any further response and therefore, is sending out a written request.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SING P. CHAN whose telephone number is (571)272-1225. The examiner can normally be reached on Monday-Thursday 7:30AM-11:00AM and 12:00PM-4:00PM.
